

FINE ARTS

AT SAINT IGNATIUS HIGH SCHOOL

The senses come alive in the Fine Arts, where students learn and perform musical pieces, create and exhibit innovative artwork, and showcase their circus-like or theater-worthy shows.

Objectives

The arts are an integral part of a student's academic development. The Fine Arts Department seeks to cultivate that development through aesthetic experiences. All students are encouraged to pursue their artistic interests. Our courses balance the overall learning process by offering alternatives to deductive reasoning and the purely rational or factual areas of study. This is, therefore, a more experiential, inductive and creative approach to learning through which the student is able to exhibit personal expression. As a result, he learns something valuable about himself and is encouraged to communicate that to others.

Courses

- **Musical Arts**
- **Rhetorical Arts**
- **Visual Arts**
- **Digital Literacy**
- **Public Speaking**
